2940 / Round lifting bag for rope access - Ø29

COLOR:

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
- ASME B30.9

A smaller version of the classic 4626 drum bag. Offers the same great features in a smaller scale as an alternative for the high climbing technicians.

- **Dimensions (open):** 29 x 40 cm (Ø x H)
- **Dimensions (closed):** 29 x 40 cm (Ø x H)
- **Lifting height:** 60 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 1122

■ **NOTE:** This bag has strong polyester lifting slings, approved for use in the US.

- The hard bottom is made of hard plastic to keep the bag in shape and prolong the lifespan of the bag.
- The bottom is replaceable and can be easily replaced if needed.
- A bottom plate is sewn into the bottom of the bag to offer weight distribution.
- The bag comes with a white plastic insert making the bag upright and stable.
- 2940 comes with two upright plastic dividers which can divide the inside of the bag into 4 compartments.
- This model has six pockets placed on the outside of the bag.
- The lifting slings can be used for belt fastening.
- The top of the bag is closed by a zipper, the pockets around the outside are closed by velcro.
- The pockets on the outside have securing holes for attaching and securing tools and other content inside.
- Comes with a comfortable detachable shoulder strap. This shoulder strap is adjustable to fit your preferences.
