3203 / Life jacket bag

Color options:

Padded bag specially made to fit and protect a life jacket when stored and/or transported.

- **Dimensions (general):** 59 x 30 x 16 cm (L x W x H)
- **Material (main):** D1800*900 PVC flat-coated polyester
- Two handles are placed on the sides of the bag to ease handling.
- The bag has one long shoulder strap. The strap is adjustable to fit your preferences.
- A large transparent plastic pocket is placed on the inner side of the lid (fits A4 paper). This can be used for certification papers, work instructions etc.
- A small transparent plastic pocket (8x13cm) is placed on the front of the bag (for nametags, ID cards or similar).
- The inside of the bag contains one large padded compartment.
- The bottom of the bag is made with diamond feet to protect and prolong the life of the bag.
- The handles and shoulder strap are made from polyester webbing.
