#4467-200 / Lifting yoke for 4467

COLOR:

A lifting yoke for reducing the lifting height for model 4467.

- **Dimensions (open):** 90 x 66,5 x 25 cm (L x W x H)
 - **Lifting height of 4467:** ~115 cm
 - **Material (main):** Aluminium
 - **Fits model(s):** 4467
-
- NOTE: This product is designed and produced to fit on model 4467 only! Do NOT use this lifting yoke for other purposes. Always follow the instructions for correct use.
 - It is not always possible to make use of 4467 due to tight spaces or low ceiling. This lifting yoke can remedy this problem without having an unsafe effect on the lifting angle of the slings.
 - This product is CE certified.
 - The yoke is hoisted in an stainless steel shackle on the top. The shackle is not removable.
 - All four lifting slings are guided through the yoke and attached in the top.
 - The sling lengths can safely be adjusted 20 cm.
 - The lifting height of 4467 can now be between approximately 115-135 cm
 - The yoke has large holes on the side designed for fork lifts for easy handling in the warehouse or on site.
