4772 / Large trolley bag w/ telescopic handle

120 L

5 KG

2 UNITS

Color options:

A large equipment bag with implemented wheels and telescopic trolley handle offering the possibility to transport and manoeuvre the bag easily. The bag is great for local and international travel.

- **Dimensions (general):** 70 x 46 x 38 cm (L x W x H)
- **Material (main):** D1800*900 PVC flat-coated polyester
- A hidable telescopic handle has been implemented to ease handling and use.
- The straps and handles are made from high quality polyester webbing.
- It has two wheels on the bottom of the bag giving it a trolley function.
- The wheels are made of heavy duty plastic. The zippers are extra heavy.
- The bag has two handles mounted on the side and one on the top of the bag to ease handling.
- The side of the bag has reflection material mounted for higher visibility.
- A hard plate is placed inside the bottom.
- The bottom of the bag has diamond feet to protect and prolong the life of the bag
- The inside of the bag contains one large main compartment and a smaller pocket on the outside of the lid.
- The main compartment has strong mesh pockets placed all around the inner walls.
- A transparent plastic pocket is placed on the inner side of the lid.
- A small transparent pocket is placed on the side of the bag.
