7030 / Large drum bag for rope access - Ø48

Color options:

4626 is a great tool bag for technicians and their daily routines. This round lifting bag was mainly developed for the purpose of working in heights and is ideal for rope access.

- **Dimensions (open):** 48 x 80 cm (Ø x H)
- **Dimensions (closed):** 48 x 80 cm (Ø x H)
- **Lifting height:** 105 cm
- **Material (main):** Tarpaulin
- **Spare parts:** 6083, 1122, 131666

- The hard bottom is made of hard plastic to keep the bag in shape and prolong the life of the bag.
- The bottom is replaceable and can be easily replaced if needed.
- A bottom plate is sewn into the bottom of the bag to offer weight distribution.
- The bag comes with a white plastic insert making the bag upright and stable.
- A rain cover is provided along side of the bag. This can be used to offer extra protection against rain and spray when stored outside for longer periods.
- The top of the bag is closed by a zipper, and the zippers are attached to a small carabiner to prevent it from opening during use.
- Comes with a detachable shoulder strap. This shoulder strap is adjustable to fit your preferences.
- A transparent pocket is placed on the top of the lid for documentation or a photo card (model no. 1122). A large pocket is also placed on the side of the bag.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
