7037 / 80 L tarpaulin trolley for lifting

A smart lifting bag with implemented wheels and telescopic trolley handle offering the possibility to transport and manouvre the bag easily on the ground.

- **Dimensions (open):** 46 x 33 x 100 cm (L x W x H)
 - **Dimensions (closed):** 46 x 33 x 70 cm (L x W x H)
 - **Lifting height:** 100 cm
 - **Material (main):** 0.75 mm tarpaulin
- A dual velcro closing mechanism makes it easy to access the bag as well as securing the bag from opening when closed correctly.
 - A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
 - The bag has three handles mounted on the sides.
 - This model uses two polyester lifting slings with steel fittings of stainless steel (AISI 316)
 - Hard bottom Polypropylene Log Plastic cover to keep the bag in shape and extend the lifespan.
 - The inside of the bag contains one large main compartment.
 - A large velcro patch is placed in the top for changable logo or project specific print.
 - Hard plastic plates are placed inside the walls all the way around making it stable and upright.
 - Reflection material is placed on the sides of the bag for higher visibility.
 - Contains an accessible name tag pocket for marker writing.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
- EN 10204
